

### REMARKS

Claims 4-11 currently remain in the application. Claims 1-3 have been canceled and claims 4-11 are all newly introduced claims.

Claims 1-3 were rejected under 35 U.S.C. 102 as being anticipated by Pascucci. At least in part in view of this cited reference and the reasons for rejection by the Examiner, claims 1-3 are herein rejected and a completely new set of claims is presented with the subject matter of the invention much more narrowly defined. These claims are clearly supported by the specification and addressed only to a sensor.

For the reason above, the title of the application of record is herein requested to be canceled and substituted by the following new title:

--SENSORS--.

It is believed that the application is now in condition for allowance, at least in spite of the reference cited by the Examiner in the aforementioned Office Action.

Respectfully submitted,

Keiichi Nishimura
